

In the last few weeks, Fasken has implemented a series of initiatives to ensure the continuity and quality of its services. Your challenges remain central to our business priorities.

Staying Connected

To help clients and business partners deal with the situation, we have centralized all of our resources relating to COVID-19:

Being at the forefront of customer service and innovation, we are proud of our teams who keep our operations going and provide you with the highest quality service.

A pioneer in the use of new technologies, Fasken has been investing in automation for many years. This proactivity allows the Firm to offer its clients an array of solutions, anywhere and anytime.

Furthermore, Fasken focuses on sharing its expertise with clients through its social media platforms.

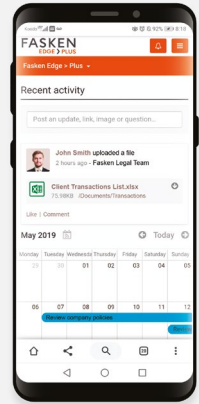

Certified ISO27001 Compliant

Fasken continues to take a comprehensive and consistent approach to managing information security risks that can affect its confidentiality, integrity and availability, and that of its clients' information.
