

Workers Compensation

Is Your Business' Claims' Costs Out of Control?

THE CHALLENGE

Many employers struggle with avoidable costs relating to workers compensation, from the length of time a worker remains off work, through to navigating the complex policies, procedures and appeals process. This is further amplified for employers dealing with several claims at once as it can be challenging to determine which to prioritize and appeal.

The risk of incorrectly prioritizing or mismanaging claims can cause employers to incur significant legal cost overruns and expensive, potentially avoidable financial settlements.

THE SOLUTION

As Canada's leading Labour & Employment law firm¹, we've developed fixed-priced solutions to help employers prioritize and manage their claims and bring down their workers' compensation claims' costs.

PORTFOLIO REVIEW

Identify high cost claims

BUSINESS NEEDS

- The biggest pain point is current spend on WorkSafeBC premiums

BENEFITS

Flat fee

- ★ Our experienced workers' compensation team will review an employer's experience rating summary and make suggestions for potential **cost recovery** and/or worthwhile appeals

VOLUME DISCOUNT

Depending on the number of claims our team handles, an employer can receive the following discounts:

VALUE ITEMS	VOLUME DISCOUNT
1 Claim	0%
2 - 5 Claims	5%
6 - 10 Claims	10%
10+ Claims	15%

PACKAGE RANGE

After our team have identified WorkSafeBC claims to appeal, employers can decide how they want our team to be involved - from an in-depth file review - all the way to full representation at the Review Division and/or WCAT:

Workers Compensation
